Dear members of the FCC,

It is of great concern to me to hear that the FCC has failed to alert the general public of the June 2 vote on whether to allow further consolidation of the media. I strongly believe more hearings need to be held. The media also needs to cover this vital subject in depth.

My understanding is that the FCC is charged to protect the public interest. By further reducing sources of news we harm the democratic process. Having one large organization controlling TV, radio & newspapers gives them the power to cover up facts, reduce dissent, ignore certain candidates, & on & on!

As we stand against terrorism, our public airwaves are vital to our safety & freedom.

To the FCC

Dear Sirs,

I am writing in regard to the upcoming decision in early June regarding regulations on the media industry. I strongly oppose any relaxation of regulations on big business and their practices. I greatly fear the results of putting too much power in the hands of too few as well as the narrowing of conversation within public reach.

Please, put this issue before the public in hearings and in publicity before you decide something so serious. Suspend June's decision until this happens.

Thank you
